This aluminum frame is often used as exhibition banner, in retail as a window display and in public spaces as keder rails. An ideal affordable aluminum frame.

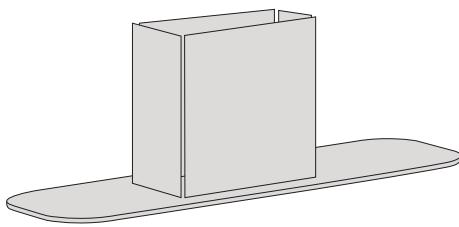

- Easy installation
- Curved or straight frame
- Easy to change

Push the keder inside the frame.

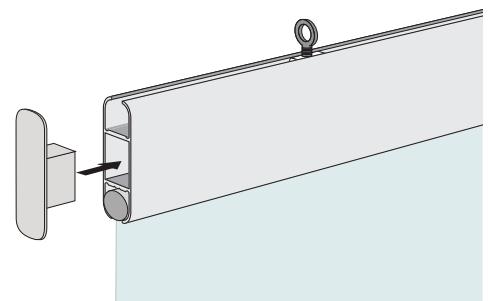

Apply the ceiling mount (FK-0609) into the groove of the frame.

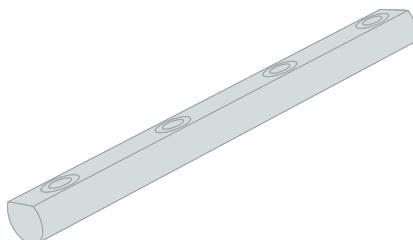

#### FK-0604

Each frame is provided with 4 endcaps.

When the keder and ceiling mount are attached, place the endcap for the finishing touch.

#### **Optional**

#### FK-0608 / FK-0607 / FK-0606 / FK-0605

If the length of the frame is longer than 4 meters, or the frame is curved, an extensionset is included.
